Summary

Results-driven Full-Stack Engineer with experience delivering web applications for fintech platforms (Finwin, Finbox) and government projects. Skilled in ASP.NET Core, Angular, Entity Framework Core, SQL/PostgreSQL, and full-stack deployment. Strong foundation in OOP, JavaScript/TypeScript, and team-based project delivery. Passionate about building scalable, secure, and user-friendly web solutions.

Experience

Software Engineer at LLC Devops (full-time)

Tashkent, 01/2025 – present

- Developing web applications including Finwin(modern web version of 1C accounting) and Finbox(Payment platform).
- Software Design, Back-End Development, Database Design, Front-End Development, Deployment

Full Stack Engineer (C#/.Net & Angular) at Olmatech LLC (part-time)

Tashkent, 06/2024 – 01/2024

- Handled full-stack development, software deployment, and database management on Windows Server, ensuring robust and scalable solutions.
- Software Design, Database Design, Web Development, Software Deployment, Server(Windows & Linux)

Full-Stack Engineer (C#/.Net & Angular) at Bepro-DEVHUB (part-time)

Tashkent, 05/2024 – 12/2024

- Experienced in developing responsive front-ends using Angular while delivering robust backend APIs and database solutions with PostgreSQL.
- Backend Development, Frontend Development, Database Management, Software Architecture, Version Control & CI/CD, Testing, External Libraries & Tools, Deployment,Agile

Intern as a Full-Stack Engineer at Bepro-DEVHUB (part-time)

Tashkent, 05/2024 – 12/2024

- Built RESTful APIs, integrated frontend and backend components, and assisted with deployment.
- Strengthened skills in C#, .NET, JavaScript, TypeScript, and full-stack development.
- C#/.Net, EF, Database, Testing, JS, Angular, TypeScript, External libraries, Docker, CI/CD

Full Stack Engineer (C#/.NET | React) at Freelance(full-time)

Tashkent, 06/2023 – 01/2024

- Led a small team of frontend developers, ensuring projects were completed on time with high quality.
- Strong problem-solving and project management skills.
- C#/.Net, Clean Architecture, Database, Telegram-Bot, Html, Css, Js, React, Deployment, Windows Server

Intern as Software Engineer Engineer (C#/.NET) at Itransition

Tashkent, 03/2023 – 06/2023

- Developed small web apps and Telegram bots, handling both frontend and backend tasks.
- Enthusiastic about learning and contributing to scalable software solutions.
- C#/.Net, SQL, EF core, xUnit, Moq, Git, Caching, Message Broker, Html, Css, React

Education

Tashkent University of Information Technologies (TUIT)

Tashkent, 09/2020 - 07/2024

Bachelor's degree, Cyber security

- Participated in coding clubs, tech workshops, and collaborative projects, strengthening problem-solving, teamwork, and practical software development skills.

- Computer Science, C++, Python, SQL, JS, Web Development, Data Structure & Algorithms, Data Encryption and Decryption, Cybersecurity

Najot Ta'lim Digital Academy

Tashkent, 07/2022 - 04/2023

Apprenticeship, Software Development

- Completed Foundation Course in C and Python, followed by a .NET Bootcamp focused on C#, ASP.NET Core, Entity Framework, and REST API development.
- Gained hands-on experience building and deploying backend projects with PostgreSQL and SQL Server, improving problem-solving and clean coding skills.
- C, Python, C#, .NET, ASP.NET Core, Entity Framework, SQL, PostgreSQL, REST API, Object-Oriented Programming (OOP), Problem Solving, Debugging

Online Courses & Certifications

- Building Services with ASP.NET Web API – [Coursera](#)
- Object Oriented Development using C# – [Coursera](#)
- Programming in C#: A comprehensive approach to C# Fundamental – [Coursera](#)
- Open Source Software Development Methods – [Coursera](#)
- Introduction to Cyber security Tools & Cyber Attacks – [Coursera](#)

Skills

C#, .NET, ASP.NET Core, EF Core, REST API, LINQ, CQRS, SOLID, Design Patterns, Unit Testing, RabbitMQ, PostgreSQL, SQL Server, MySQL, NoSQL, Angular, TypeScript, JavaScript, HTML, CSS, React (basic), Docker, CI/CD, Nginx, IIS, Git, Swagger, Postman, Windows/Linux Server, Agile, Problem Solving, Clean Code, Debugging, Teamwork
